# Introducing The Unaccompanied Adults:

Christina Chavez is a mother, wife of a retired Army service member, and self-employed project manager with higher education and NPO experience. Her most recent role led migrant service teams in applying for/bidding on federal, state, and local grants/contracts funding services for this and other immigration demographics. The vulnerability of those attempting to immigrate to the U.S., especially those identifying as unaccompanied minors is a "hot, political" topic within the US migrant services sector. As the grandchild of an immigrant deported three times before obtaining US citizenship, she yearns to be part of the functioning solution to this problem.

As a neuroscience major with a minor in politics, Princess possess a unique blend of academic knowledge and practical experience in assisting immigrant families through the citizenship process. Princess is deeply passionate about advocating for unaccompanied minors and aspire to work for the government in order to aid them on their path to becoming citizens. With a foundation in neuroscience and a commitment to social justice, Princess is determined to contribute to the well-being and empowerment of these young individuals as they navigate their journey towards a brighter future.

Suzy Jones is a data scientist with a strong academic background in education, specializing in understanding the complexities of unaccompanied minors crossing the border. For the past decade, as an English as a second language teacher, she has developed a deep understanding of the challenges faced by children and families affected by border procedures and policies. Through rigorous analysis and modeling techniques, she has extracted meaningful insights from government data sources for this project. Our research focuses on identifying risk factors and exploring migration trends of all encounters, but especially these vulnerable children. Ms. Jones strives to contribute to policy discussions and advocate for a more compassionate approach.

Our  
"powers" combined assisted us in  
determining our  
topic of choice,  
which hit close to  
our hearts...

# The Dataset and its Importance

- US Customs and Border Protection page titled, [“Southwest Land Border Encounters”](#)
- Provides data on:
  - ▶ U.S. BP Title 8 apprehensions
  - ▶ OFO Title 8 inadmissibles,
  - ▶ and Title 42 expulsions

**U.S. Customs and  
Border Protection**

# Defining Demographics:

Oliver de Ros

Ramon Espinosa, AP

Kim Kyung-Hoon, Reuters

Photo by Lucas Jackson, Reuters

## Single Adults

One adult over the age of 18

## FMUA

Individuals in a Family Unit

## Accompanied Minors:

Children arriving in the US with a parent or guardian

## UC/Single Minors:

- No lawful immigration status in the US
- <18 years of age
- No parent/legal guardian in US or no parent/legal guardian in US available to provide care and physical custody

# Defining Types of Encounters:

- ▶ **Apprehensions:** migrants are taken into custody in the United States – at least temporarily
- ▶ **Expulsions:** migrants are immediately expelled to their home country or last country of transit
- ▶ **Inadmissible:** migrants are not able to be lawfully let into the country

# Where People are Coming from...

1	Row Labels	Sum of Encounter Count
2	El Salvador	248184
3	Guatemala	662482
4	Honduras	662470
5	Mexico	2208196
6	Other	2222350
7	Grand Total	6003682

# Time in Relation to Encounters at the Border:

Row Labels	Average of Encounter Count
2020	828.3688969
2021	2648.375573
2022	3740.477987
2023 (FYTD)	3788.26455
<b>Grand Total</b>	<b>2701.927093</b>

- ▶ Significant increase after 2020
- ▶ Coronavirus forced borders to be closed in April 2020 which slowed migration (Pew Research)
- ▶ Continued increase through 2023
- ▶ Total averages per year: 2,702

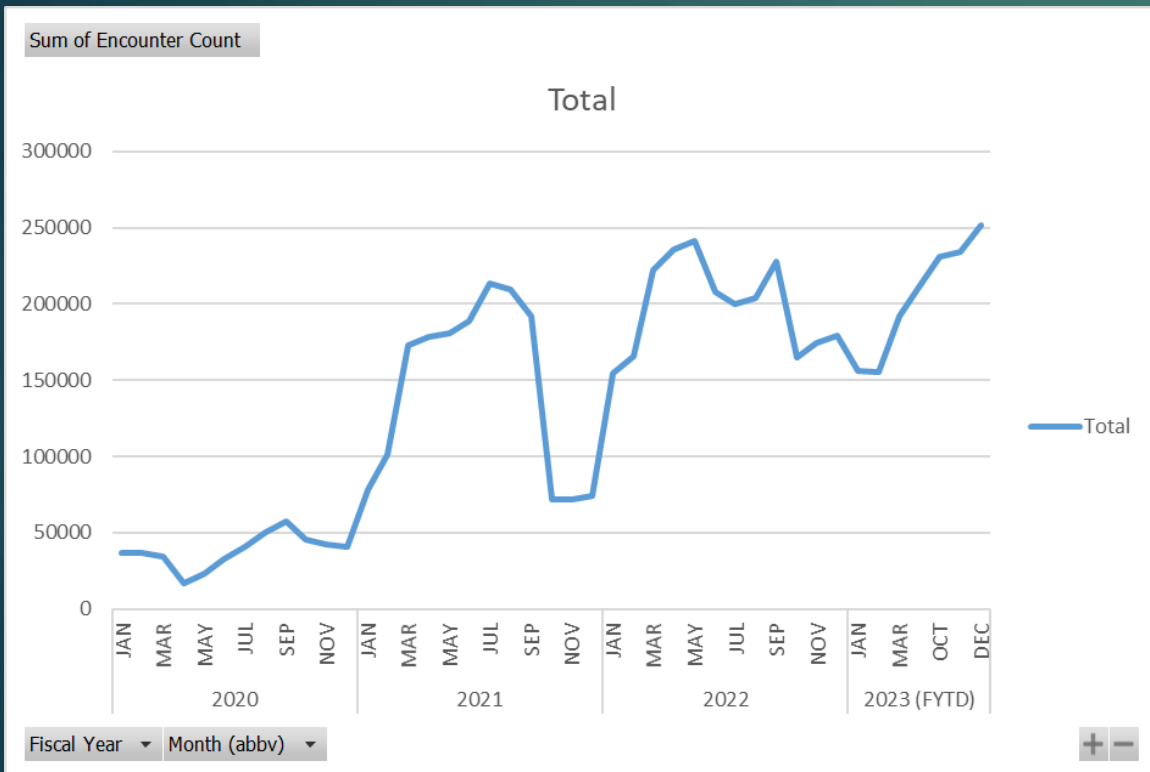

# Who Came from Where and When?

- ▶ 2021 & 2022 encounters higher
- ▶ 2023 fiscal year has not ended yet
- ▶ Demographics mirror totals
- ▶ NOT UC/Single Minors
- ▶ Fewer UC/Single Minors encountered at border over last 4 years
- ▶ Not necessarily a good thing

Tableau of Encounter Count by Citizenship and Fiscal Year

# Total Encounters over Time & Total Encounters Comparison by Year

# Months of Encounters

Tableau of Encounter Count by Demographics and Month of Encounter

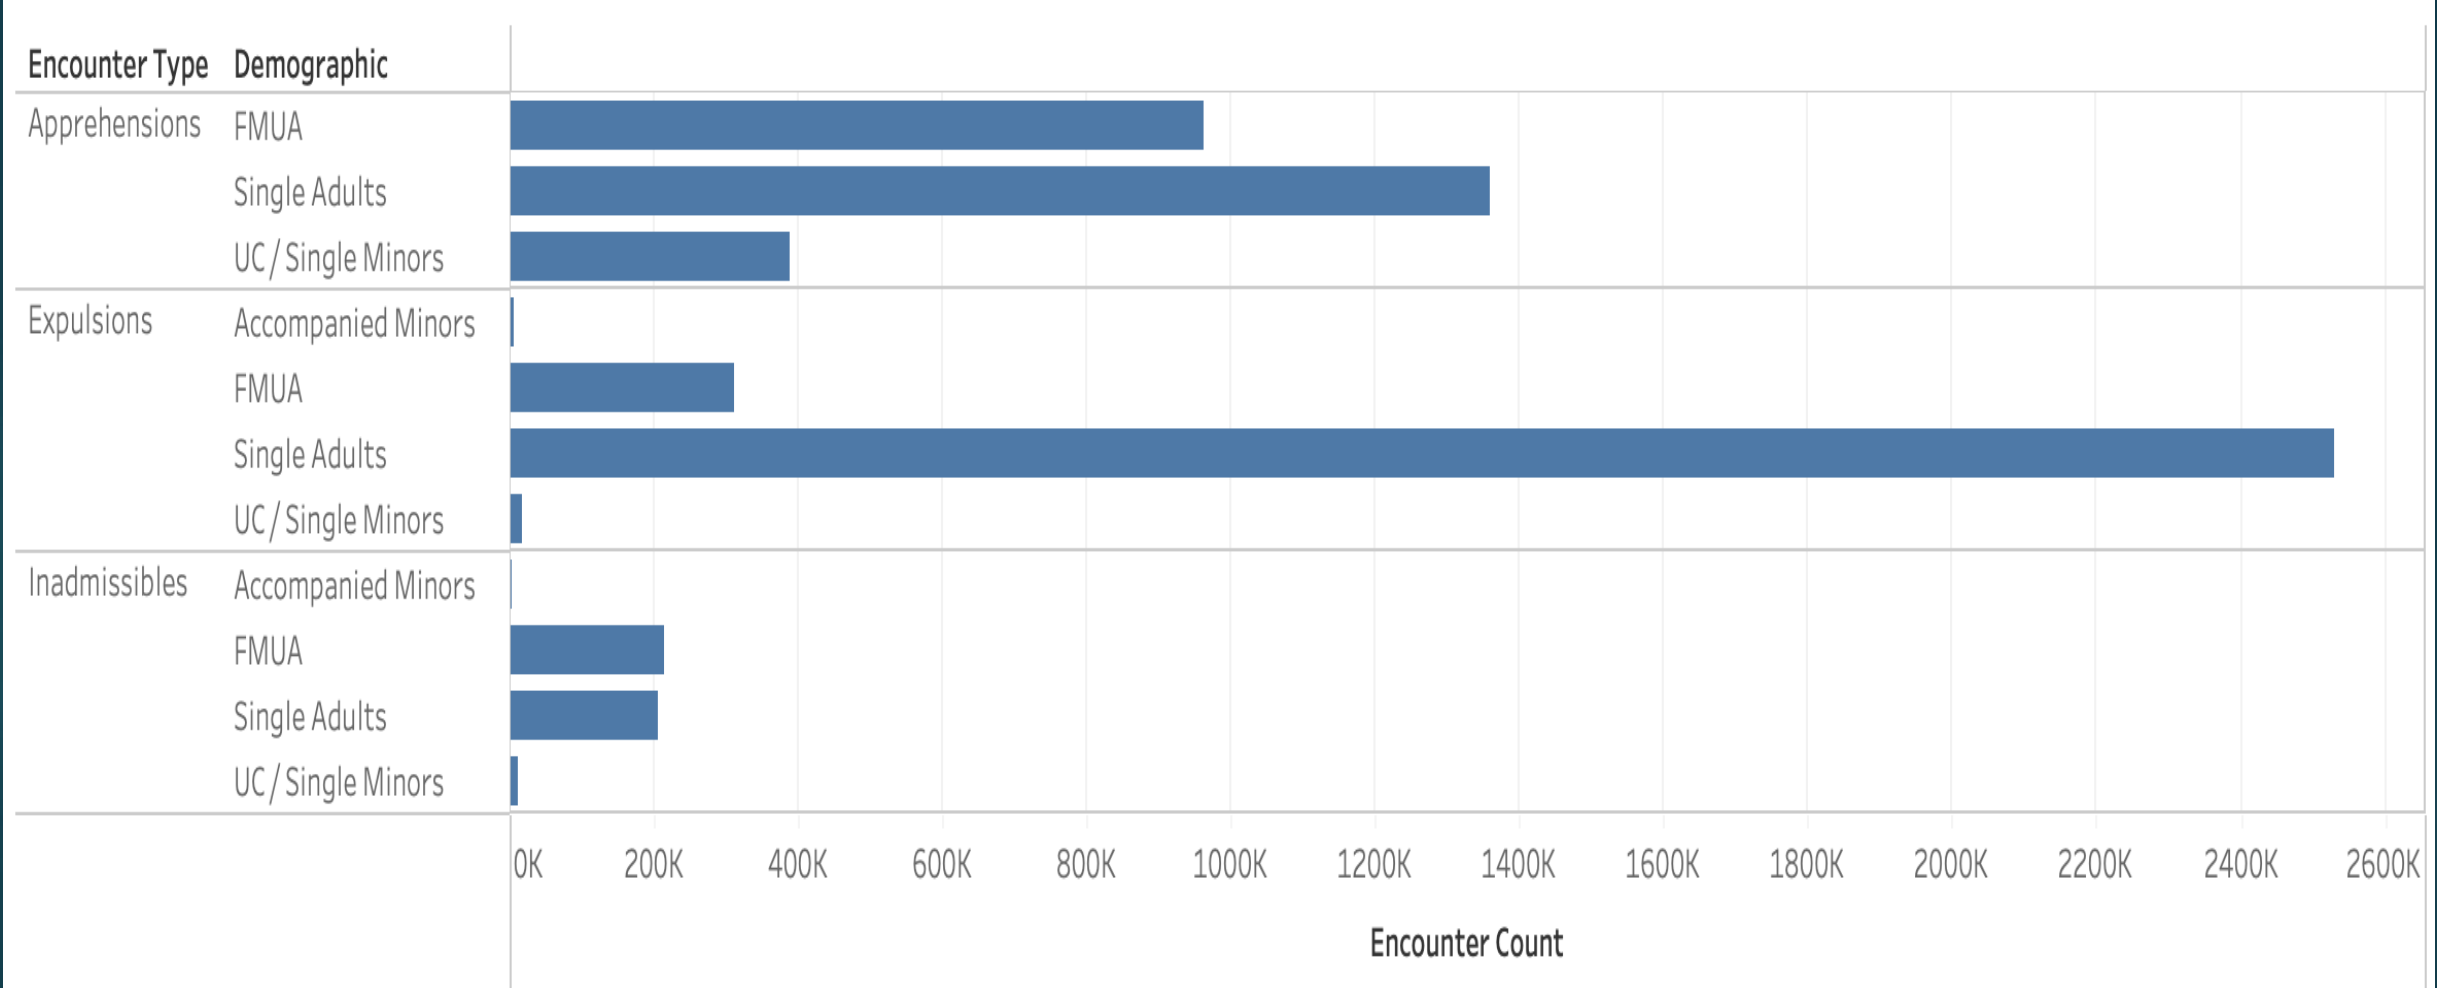

Encounters

- ▶ Most encounters occur in fall and winter months
- ▶ In summer months, it is too hot / wet
- ▶ UC/Single Minors data aligns with general demographic trends.

# Encounter Type by Citizenship

# Demographics and Encounter Type

# Encounters by Demographics and Citizenship

Count of Encounters by Demographic and Citizenship

Photo by Upfront, NYT

	Month (abbv)	Encounter Count
Month (abbv)	1.0	0.0094
Encounter Count	0.0094	1.0

Can we predict when the next influx of encounters will be?

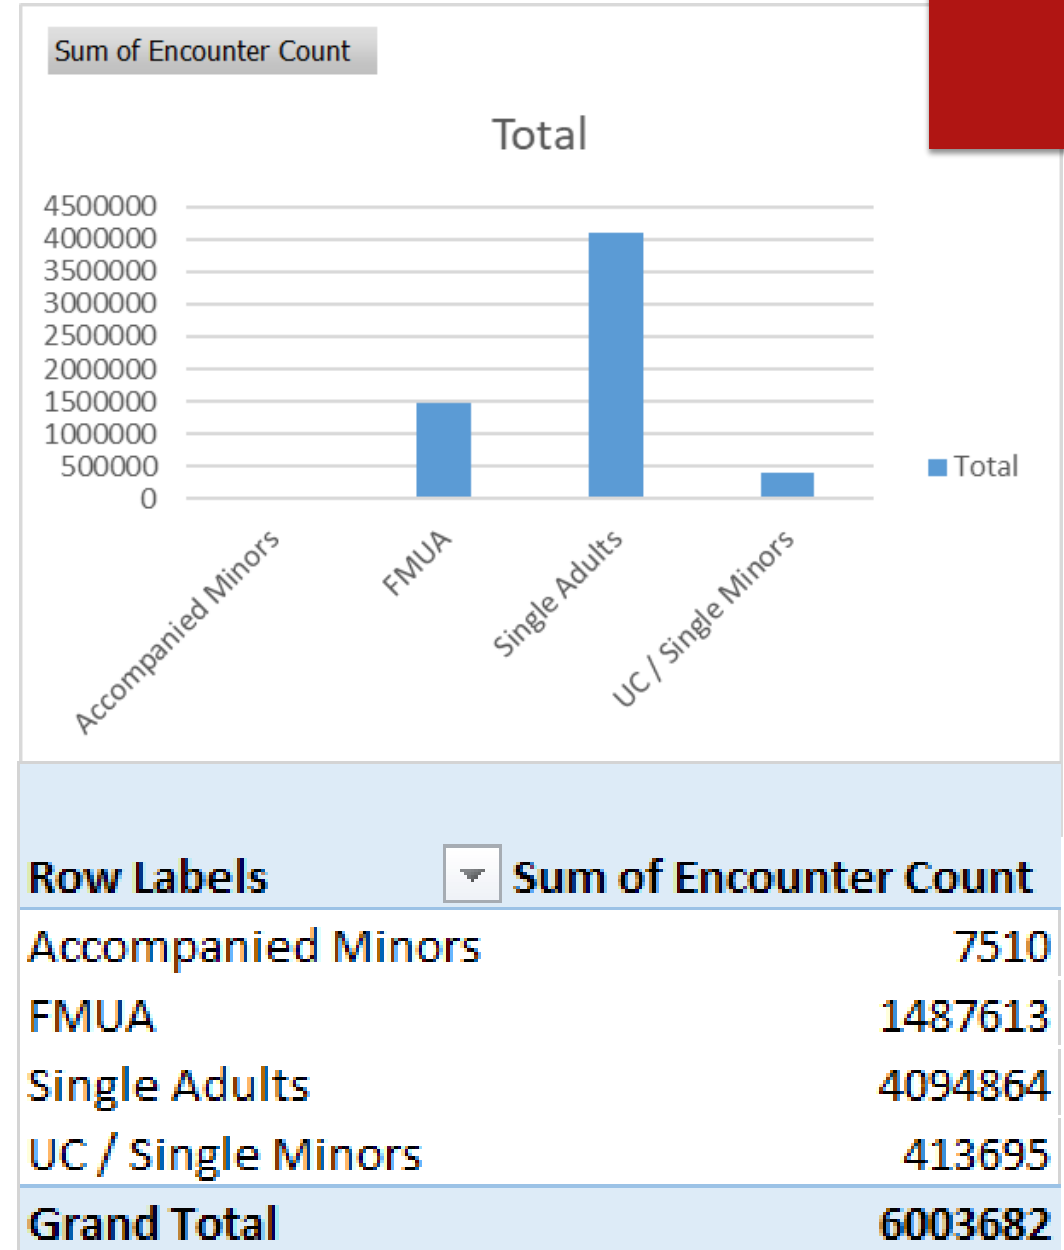

No, there isn't enough correlation to predict influxes of encounters

Photo by Reuters

# Conclusions

- ▶ Latin Americans leaving their home country due to:
  - ▶ impending violence,
  - ▶ effects of climate change,
  - ▶ generational poverty
- **Over 6 Million Encounters**
  - ▶ Roughly 7% are UCs
- ▶ Encounters by Country:
  - ▶ **Guatemala 11% (UC: 38%)**
  - ▶ Mexico 37% (UC: 21%)
  - ▶ Honduras 11% (UC: 24%)
  - ▶ **El Salvador 37% (UC: 10%)**
  - ▶ "Others" 4% (UC: 7%)
